

Drawing Robots

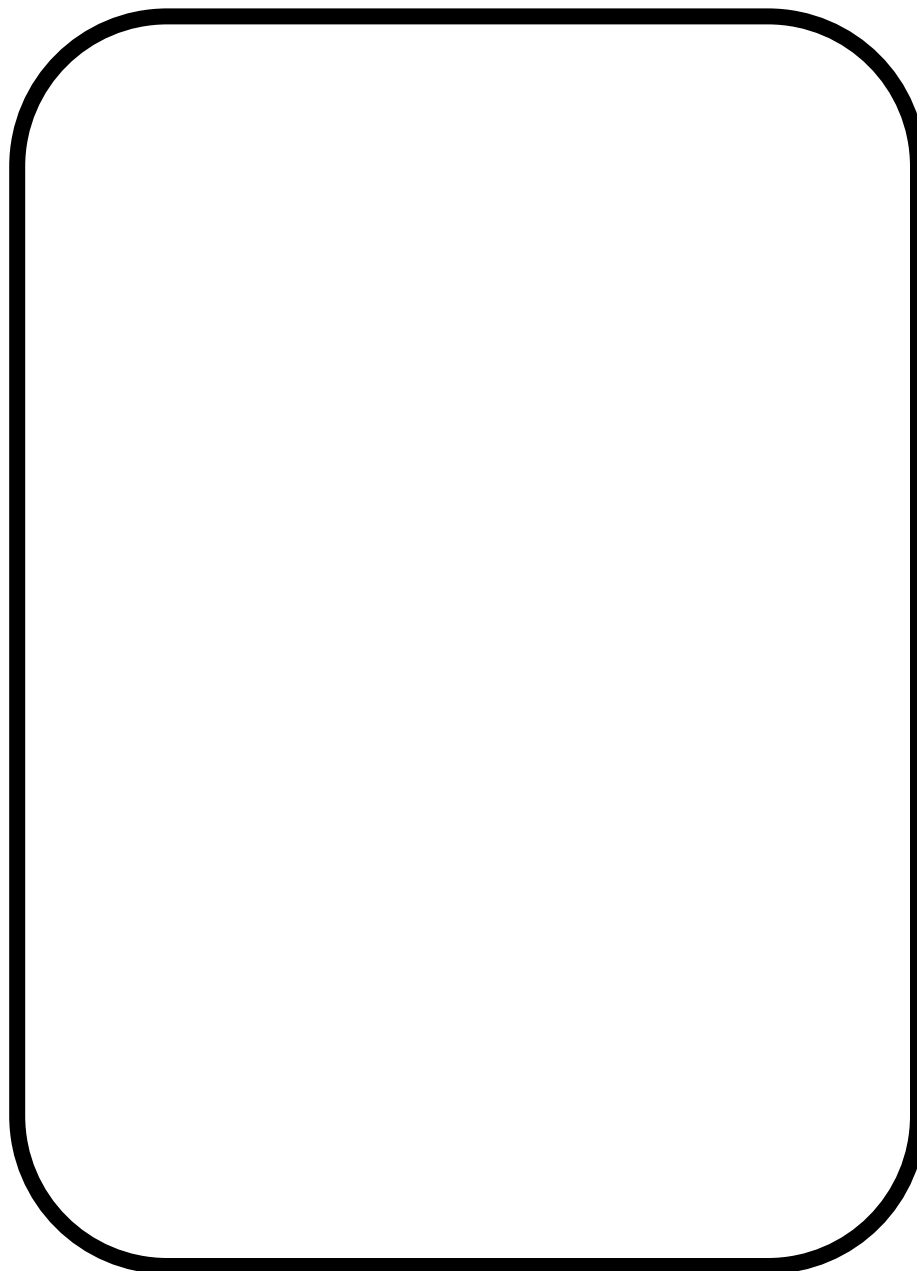

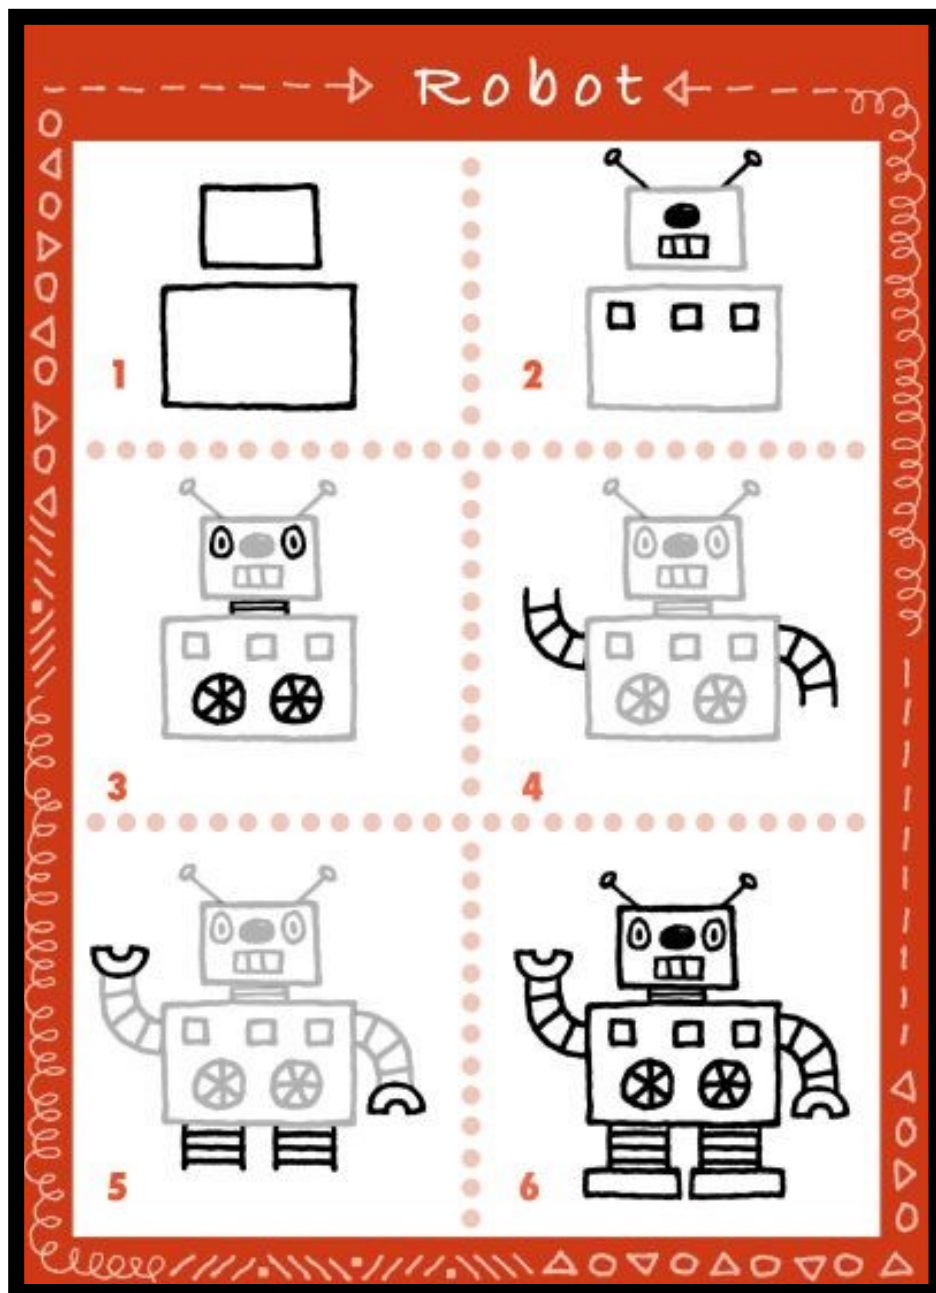

Directions:

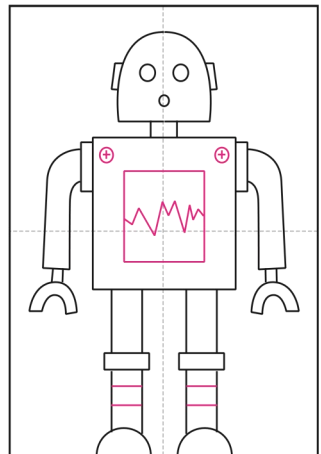

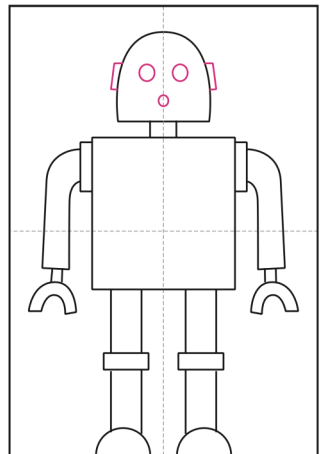

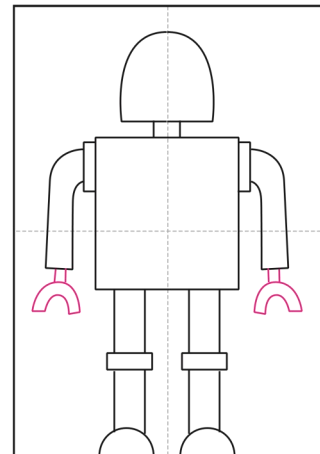

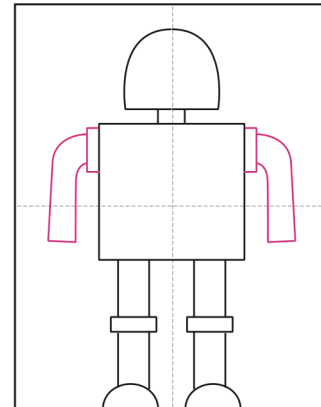

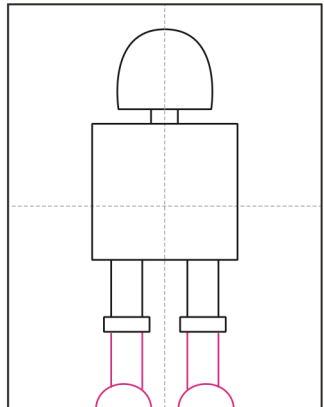

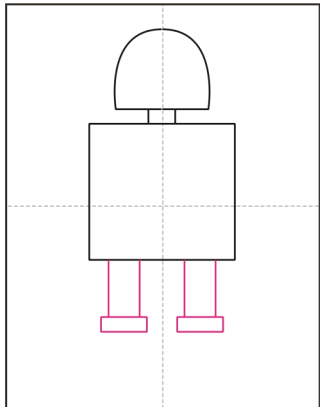

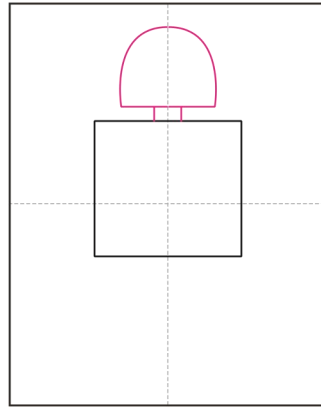

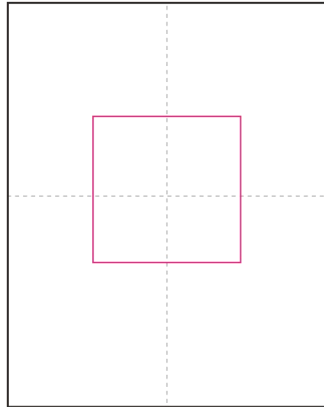

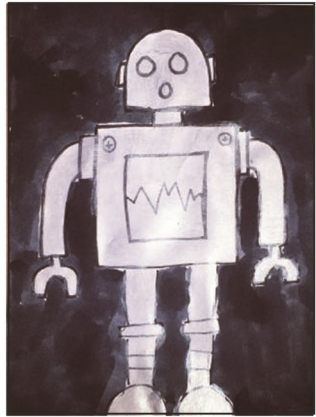

- 1) **Choice:** a. Join my videos to draw these robots, b. work from the pages in this document, or c. use both the together. There is a separate video for each robot page. You get to choose which robots you like to draw.
- 2) **Paper Choice:** You may print these pages and draw on them. Or, look at the examples and draw on your own paper from home. (*Use Printer paper, notebook paper, drawing paper, scrap paper, even cardboard will do.*)
- 3) **Material Choice:** Use pencil, pen, markers, crayons or colored pencils to draw.
- 4) **Pages 2-7 Practice Drawings :** Choose one, two,, or all of the first 6 robots to draw (Robots 1-6 Labeled in right corner of each page). *You choose how many. Use these as a break from your other school work. Mostly, Have Fun!*
- 5) **Page 8 Design your own robot**, using the guide. Feel free to add your own ideas. **(robot #7)**
- 6) **Page 9 Create a Robot Adventure.** Draw and color following the directions on the page. If you use thicker paper, you can use paint if you want.
- 7) **Send photos** of “Design your own robot” (page 8) and your Adventure (page 9) to Mrs. Boyd. I’m looking forward to seeing your work! jennifer.boyd@jcschools.us.

Thank you to families who shared the last projects with me! It brightened my spirit to hear from you and my students.

Directions: Following the steps, draw your robot in the shape below.
